

NetTA™ Virtual Teaching Assistant

For over two decades, NetTutor has helped millions of students get the support they need when they need it, every day of the year. Now faculty can bring our expertise and quality into their classroom as their personal teaching assistant, NetTA!

Services

- NetTAs will review assignments by applying your own rubric to the student's effort, using their subject matter expertise to offer feedback.
- Our unique Rules of Engagement customization allows each department to set expectations and define standards for the service students receive.
- NetTAs are available every day of the year, including holidays.
- Grade recommendations are delivered in a format that enables thorough faculty review before application to student records.
- Service can be integrated directly into your LMS, allowing easy single-sign on access for students.

Benefits

- Free up instructors' time while maintaining custom grading style and high standards.
- Every aspect of the grading and review process can be customized.
- Students can author assignments in a variety of file formats.
- NetTAs use the specific assignment prompts and rubrics provided by instructors to grade assignments.
- When instructors spend less time on grading, they can spend more time providing individualized instruction to their students. Consider adding on the faculty referral tool for even greater support.
